An important tool is the Precision Editor It controls when a video fades in or out by showing an exact timestamp before and after the transition.. Each template has its own original score, graphics, and animated transitions The transitions are predetermined visual breaks created by the photos and videos you import.. Once your Apple devices are synced, iMovie can serve as a home movie portal It conveniently stores and organizes all imported photo and video files.. Ever taken a video on the fly? It's unpredictable Once videos and photos have been imported, you can trim clips, add close-ups, enhance audio, and even remove sound, and comes handy when you want to make changes, but don't know where to begin.. Create Movies: iMovie is one of the easiest video editing tools to use, letting editors click and drag imported clips into the timeline, as well as automatically lock on adjacent videos..
